**DEFENDANTS IN ALLEGED UNAUTHORIZED PRACTICE OF LAW IN MIDDLE  
TENNESSEE IMMIGRANT COMMUNITY AGREES TO STOP UNLAWFUL  
CONDUCT**

A Middle Tennessee man and two companies allegedly providing legal services without a license to members of the Hispanic immigrant community have agreed to stop the alleged unlawful conduct and to provide audit findings to the Tennessee Attorney General's Office and Division of Consumer Affairs.

Attorney General Bob Cooper on behalf of Division of Consumer Affairs filed suit against Elmer Virula, TPS Tax Professional Services, Inc., and Office Professional Services, Inc. Feb. 29. The defendants have agreed to submit requested financial documents within 10 days to the Attorney General's Office for examination. A trial date on the matter has not yet been set.

The defendants are accused of unauthorized practice of law for allegedly providing services from their offices located on Billingsgate Road in Antioch, South Mountain Street in Smithville, and Nolensville Pike and Thompson Lane in Nashville. The State's lawsuit alleges the defendants falsely told consumers that Elmer Virula is an attorney and certified public accountant in the State of Tennessee. The complaint also alleges the defendants misled consumers, claiming they could provide legal services such as immigration document preparation and also offering marriage licenses and certificates, which were falsified.

If you paid Elmer Virula, TPS Tax Professional Services, Inc., or Office Professional Services, Inc. for services, please contact the Tennessee Attorney General's Office at (615) 741-1671 or toll

free within Tennessee at 1-877-275-7396. The State is still trying to determine how many consumers may have paid Virula and the related businesses for services he allegedly did not provide.

If you know of an individual or company that may be practicing law without a license, please file a complaint with the Attorney General by downloading a complaint form from <http://www.attorneygeneral.state.tn.us/cpro/upl.htm> and mailing it back to:
